

About Ascendis Pharma

Ascendis Pharma is using an innovative platform technology to build a leading, fully integrated biopharma company focused on making a meaningful difference in patients' lives. Guided by our core values of patients, science and passion, we use our **TransCon™** technology to fulfill our mission of developing new and potentially best-in-class therapies that address unmet medical needs.

Ascendis Pharma (NASDAQ:ASND is based in Palo Alto, California and Copenhagen, Denmark and focuses on oncology and endocrine rare diseases spaces).

About Keck Graduate Institute

Founded in 2018, Keck Graduate Institute (KGI) Biopharmaceutical Industry Fellowship Program aims to provide exceptional biopharmaceutical industry training for PharmD graduates with a broad exposure to the areas fundamental to drug discovery, development, and commercialization. This program will prepare fellows for a career in the pharmaceutical industry by focusing on developing a deep understanding of how companies operate. Each position affords significant experience in a corporate setting, enabling fellows to hone their business and clinical skills. The program also aims to foster professional development, provide intensive, hands-on training, and expose to a variety of industry and academia-based opportunities.

Ascendis Pharma

Biopharmaceutical Industry
Fellowship Program

2023-2025 Recruitment Brochure
Global Medical Affairs & Scientific Affairs

Fellowship Mission:

To develop strong, confident, and competent biopharmaceutical industry leaders through the following:

- Professional development to promote learning agility, scholarship, enhance leadership, critical thinking, and team-building skills
- Networking to establish both personal and professional relationships among colleagues, alumni, industry professionals, and healthcare providers
- Community service to contribute and remain connected within the community

Global Medical Affairs and Scientific Affairs

Recruiting for one (1) position for 2023-2025 – **Hybrid Position** in Palo Alto, CA or Princeton, NJ (3 days in-person).

SUMMARY

The Global Medical Affairs and Scientific Affairs Fellowship provides two (2) years of comprehensive practical hands-on biopharmaceutical training and fosters an environment of learning within a fast-growing biopharmaceutical company. The fellow will be paired with leaders in our Medical Affairs functional area and will have the opportunity to support Training, Medical Information, and Medical Communications. The collaborative environment will offer the fellow an enduring network and exposure to all aspects of the drug development process.

Fellows will spend 90 percent of their time on duties specific to Ascendis Pharma and 10 percent of time on academic development activities with the KGI School of Pharmacy and Health Sciences. All fellows will be eligible for adjunct faculty status and will have the opportunity to earn a Teaching Certificate.

Learning Objectives:

- Obtain comprehensive training within our disease states and products and/or investigational agents
- Develop scientific content for internal and external education for training
- Collaborate with a publication team for presentations at conferences and journal publications
- Assist with onboarding and knowledge advancement activities for both Field and internal Medical Affairs team
- Plan, create and pull-through for training, medical information content and other field initiatives associated with MSL activities
- Participate and experience a global product launch to fulfill a business strategy
- Contribute to good publication planning, execution, and presentation while collaborating with external authors on abstracts, posters and journal publications
- Self-directed publication or poster presentation at professional congress

— Lisa Inge Stewart

Director, Endocrine Medical Sciences
Scientific & Professional Training

“We are excited to offer the first Ascendis Medical Affairs- Scientific Affairs 2-year fellowship with support from KGI. This collective fellowship will offer any fellow a very rewarding experience by providing insight into the medical side of a rare disease Pharma organization. Our Scientific Affairs team has gone above and beyond to align activities that we believe will set up a solid and productive job experience. We are thrilled to offer experience in not just one area of Medical Affairs, but instead have activities in training, medical information, and communications. This has been done as result of our internal collaborative working partnerships to allow a smooth transition for the fellow, while also advancing their skill sets to support additional business needs. We are looking forward to expanding these experiences in the future.”

Application Process

The KGI-Ascendis Biopharmaceutical Industry Fellowship provides a unique opportunity to prepare PharmDs for a successful careers in the industry. Candidates are encouraged to review the application requirements and deadline as admission to this program is competitive.

Ascendis Pharma – Diversity, Inclusion & Equal Opportunities
