

STUDENT ATTENDANCE AT CONFERENCES POLICY

The purpose of this policy is to articulate requirements for students to attend one conference/year and the program will pay for early bird registration fee. If presenting, program may pay for additional conference attendance. The following conferences will be considered for support: a. APTA Combined sections meeting, b. North Carolina PT Association meeting, and c. National Student Conclave. The program will **only** pay for early bird registration. Other requests will be considered on a case basis. Unless presenting, PT3 students are excluded from this opportunity to focus on clinical training.

Requirements:

- Must be in good academic standing with the university
- Must be a current APTA member
- PT3 students presenting at conferences must get approval from the DCE and assigned CI to attend
- Priority given to those students who are presenting research (poster, platform)

Logistics:

- For APTA Combined Sections and Student Conclave Meetings:
 - Students are to complete registration form, print, and provide to program coordinator no later than 2 weeks prior to early bird registration deadline
- For NCPTA
 - Program coordinator will communicate directions to students on sign-up process

Failure to meet the deadlines set by program coordinator for registration will forfeit this opportunity.
