

Fellow CUSOM Students,

I am running for the position of SGA Secretary in hopes that I may be able to become a more active participant in maintaining strong communication among CUSOM students. The role of secretary is important for creating consistent and concise communication between leadership and with the entire student body. This communication is vital for allowing students to keep track of events and programs being held around school. In the role of secretary, keeping a record of the numerous events organized by clubs and ensuring that they are properly communicated in a clear and concise manner would be a primary goal for me. I understand that keeping track of different events is difficult and can result in emails for great events and amazing opportunities being lost in the sea of emails we all receive. For this reason, I would want to make sure that the fliers or reminders for upcoming events were included into the "This Week at CUSOM" emails and ensuring that they were sent out on a regular basis. This would hopefully encourage participation in events that may have not previously been noted. Continuing the work of previous SGA secretaries, I will ensure that I highlight classmates that were helpful, kind, and embodied what a great CUSOM student represents while also including fun aspects that prevent the emails from becoming a long list of events that is undesirable to read. Finally, I would take it as my duty to ensure that communication and organization was maintained with our SGA leadership and relay any messages needing to be sent out from the group. Through this position, it would be my hope that I would help encourage my classmates to be active with the events happening around CUSOM by helping them stay informed about what was going on around the campus through active and consistent communication.
