Student Participation Requirements

1. All sections of the Abstract Submission Form must be completed.
2. Poster must include a quality parameter (what you learned) and will be assigned to one of the 9 CMS categories.
3. Abstract and poster must include an osteopathic element related to either philosophy or treatment.
4. Abstract and poster must include at least one faculty mentor for the case/project.
5. The primary author for the case/project must be a student.
6. Additional group members can consist of faculty (MD, DO, PhD), residents (PGY1 – 5), or other students (MS1 – Ms4).
7. Groups cannot exceed the **maximum number of 5 members (including the primary student author and required faculty mentor)**. At least one member in the group must attend and present during the in-person/virtual competition event in February; attendance for all other group members is optional but all are welcome to attend.
