

# Kaplan Medical Full Length COMLEX-USA® Level 1 Simulated Exam

**\*Predictive Score:** Kaplan examined the relationship between its COMLEX-USA® Level 1 (L1) simulated exam scores and the official COMLEX-USA® L1 exam scores. Data were collected from the six participating institutions (N = 399). Students took Kaplan's COMLEX-USA® L1 simulated exam in May and June 2023 and then took the official COMLEX-USA® L1 licensure exam between May and October 2023, after their simulated exam. Of these, 366 (91.7%) passed the exam and 33 (8.3%) failed. Kaplan makes no representation or warranty, express or implied, concerning the predictability of passing an official licensure examination.
