

Congratulations and welcome CUSOM Class of 2028!

SOMA partners with Steele Supply Company each year to put together an easy, one-stop shop for purchasing your clinical skills equipment. Everything required for clinical skills is included on the order form, along with a few extra items. The order form is not "all or nothing," so you can customize your order for your needs. Some people have ordered all their equipment through us, and others have ordered everything on their own, so it's really up to you. Dr. Lowe-Clayton recommends both the items and the brands listed on the form, and this is a great way to ensure you have the correct supplies for Clinical Skills.

You will need your equipment for use in Clinical Skills during Block 2. **The deadline to order your supplies will be September 1st, which will give you time to consider your order and ensure enough time for delivery at the start of Block 2 in October.** I will send email reminders as the deadline approaches to keep it on your radar.

Please list the school address as the shipping address in your order. Steele Supply Company will send one shipment with each order individually bagged to CUSOM, and SOMA will distribute everything once it arrives. Please list the shipping address as follows:

Campbell University School of Osteopathic Medicine
c/o SOMA
4350 US Hwy 421 South
Lillington, NC 27546

Please use this link to order: <https://www.steeles.com/products/campbell-som-student-package>

If you have any questions, feel free to email cusom@studentdo.com.

Sincerely,

Riley Shegos, OMS-II
CUSOM SOMA President
