

Greetings,

You are cordially invited to an evening series of short **Research in Progress** talks given by the Master of Science in Biomedical Sciences (MSBS) second-year students on **December 4-5th from 4:00-6:00 pm in Levine 202**. As part of the Capstone Project I course this semester, the second-year MSBS students critically reviewed scientific literature on health-related topics and examined data available within the CDC's National Center for Health Statistics databases to generate a research proposal with they will present during these scheduled 30-minute talks.

Please see the attached program to view the schedule and titles of these talks and consider which ones you would be interested in attending. ***You are welcome to attend ANY of the presentations. Please feel free to arrive and leave as your schedule allows during the Q&A.*** There will be time for questions from the audience at the end of each presentation.

Capstone Project I: Research in Progress Talks
Presented by: Second-Year MSBS Students
Leon Levine Hall of Medical Sciences, Room 202

December 4-5th
4:00-6:00 p.m.
