

Incubator for Legal Practice and Innovation (ILPI)

ILPI exists to help you start and run your own firm

ILPI's three points of focus – our core values:

entrepreneurial and innovative

The delivery of legal services needs new solutions. ILPI encourages our attorneys to be entrepreneurial and innovative. We provide training on innovative business models and cutting-edge tools.

financially sustainable

Your law firm is a business. As a business, it must be financially sustainable so that you can make a living and provide exceptional client service.

improving access to justice

Too many people cannot access legal services. ILPI attorneys embrace the mission of improving access to justice, providing legal services to people who are often overlooked or underserved.

ILPI will support you with training and free or discounted legal tech tools. You are not alone.
