

UC Health

Surgical Fellowship for Advanced Practice Providers

APP Surgical Fellowship

The Advanced Practice Provider (APP) Surgical Fellowship with UCHealth is a 12-month intensive training program currently accepting applications for the 5th cohort. APPs will gain experience in the pre-operative, intra-operative and post-operative setting across a variety of rotations both at University of Colorado Anschutz Medical Campus in Aurora, CO and Medical Center of the Rockies in Loveland, CO.

The focus of this APP fellowship is to provide surgical didactic and clinical experience to both Physician Assistants and Adult Acute Care Nurse Practitioners across the continuum of care for surgical patients. Didactic education will include a comprehensive training orientation, a variety of skills labs, and weekly education lectures. Clinical rotations will occur across a variety of specialties, including trauma and acute care, surgical oncology, plastics, minimally invasive, cardiovascular, intensive care and a variety of other surgical specialties. This fellowship will provide opportunities for APP fellows to engage in research and quality improvement initiatives within the hospital with the support of UCHealth faculty and staff.

The fellowship is ideal for new graduates who wish to pursue a career in surgery or practicing APPs who wish to change career focus. The goal of this fellowship is to help APPs transition smoothly into a career in surgery. Colorado is a welcoming state for all APPs. While outside of the hospital, fellows can easily enjoy breathtaking hikes, skiing, and bike riding in the beautiful Rocky Mountains.
