

UVA ADVANCED PRACTICE PROVIDER FELLOWSHIP PROGRAM

SPECIALTY TRACKS

Outpatient Neurosciences
Primary Care
Critical Care

OUR VISION

To promote the APP role throughout the institution and foster excellence in emerging and aspiring advanced practice providers through a rigorous yet supportive clinical and didactic specialty curriculum. We strive to increase and expand clinical knowledge for advanced practice providers new to a field or specialty, with emphasis on teaching and delivering expert clinical care, promoting and developing valuable leadership skills, and accelerating the transition to practice for the advanced practice clinician.

OUR MISSION

Elevating future clinician leaders through enriching curriculum, counsel, and connection.

HOW TO APPLY

- Completion of online application @ <https://careers.uvahealth.org>
- Submission of supplemental documentation
 - Graduate academic transcripts
 - Curriculum Vitae
 - 500-word letter of intent describing why you wish to complete a postgraduate fellowship program in primary care
 - Three (3) letters of recommendation emailed directly from letter composer/writer by professional colleagues who can attest to qualifications, motivations, and other relevant characteristics suitable for the position.
- E-mail all supporting documents to appfellowship@uvahealth.org

WHY CHOOSE US?

We provide a rigorous training experience spanning across subspecialties, including but not limited to the clinical, procedural, psychosocial, leadership, and professional development domains.

Personalized

Our fellows receive a uniquely tailored clinical rotation experience based on their interests and educational needs

Robust

Our fellows are allocated an immersive, comprehensive dedicated didactic day every week

Centralized

All of our APP fellowship programs have a central reporting structure, ensuring continuity of standards, approach, and leadership
