

INTERNSHIP PROGRAM

About ECIR Medical Communications:

ECIR Medical Communications is a client-centric agency committed to providing unparalleled scientific communications solutions and customer service. ECIR Medical Communications is a parent company of two subsidiaries, **Luminology Scientific Communications** and **iLuma Medical Communications**. In January 2023, ECIR Medical Communications was acquired by Clinical Education Alliance. As part of a larger organization, ECIR Medical Communications has gained several advantages, including growth support from a larger agency with access to capital, enhanced benefits, cross-selling opportunities, capabilities synergies, and new opportunities for its employees. We expect the partnership to only enhance the internship experience.

About the ECIR Internship Program:

The ECIR Internship Program is an unpaid opportunity designed to help candidates identify potential career paths in the pharmaceutical industry. The internship accentuates the growth and development of students into competitive industry professionals by providing them with the necessary skills, networking, and an unparalleled learning opportunity.

Interns will work closely with medical directors, scientific managers, and current fellows to utilize their clinical knowledge in the development of content for healthcare-related publications, conferences, and digital media for a variety of audiences. Since our agency consists of medical professionals who work with clients in diverse therapeutic areas on a variety of projects, each day brings a new challenge and an opportunity to learn and grow. Interns will have the opportunity to virtually shadow current industry professionals helping to establish an understanding of the various roles within the industry.

Essential Duties and Responsibilities:

- ✓ **Collaborate** with Fellows, Scientific Managers, and Directors to provide support for ongoing projects
- ✓ **Contribute** to authoring and delivering accurate scientific content
- ✓ **Review** relevant medical literature, actively participate in weekly journal clubs, and present scientific content
- ✓ **Participate** in congress strategy, planning, and session mapping
- ✓ **Commit** 10-15 hours per week

Candidates must meet the following eligibility criteria:

- ✓ Possess a strong interest in a career in the pharmaceutical industry
- ✓ Demonstrate exceptional written and oral communication skills
- ✓ Must be detail-oriented, highly organized, and able to manage multiple tasks
- ✓ Demonstrate the ability to work independently as well as with a team
- ✓ Exhibit motivation and great work ethic
- ✓ Must have their own working laptop, equipped with Microsoft Office
- ✓ Current enrollment and completion of at least 1 year in an ACPE-accredited Doctor of Pharmacy program
- ✓ Must be in good academic standing within their pharmacy program and a minimum GPA of 3.5 is preferred
