# Cervical Cancer

One of the most preventable and treatable types of cancers

## Gardasil 9

Protects against 9 types of HPV:

2-dose series: age 9 to 14

3-dose series: age 15 to 45

## Screening

Normal screenings begin

at 21 years old and

should be performed every 3 years

## Barrier Protection

Condoms are the primary protective  
method against cervical cancer

According to the National Cancer Institute, roughly 13,820  
individuals will be diagnosed with cervical cancer and more than  
4,360 will die from the disease.
